How Stripe will verify your identity

Stripe will use biometric technology (on images of you and your IDs), as well as other data sources and our service providers (such as document issuer or authorised record holder), to confirm your identity and for fraud and security purposes. Stripe will store the data it collects and the results of this check and share them with FTX US.

No, don't verify

9. You might see prompts asking you to allow FTX and Stripe to access your camera, you will need to allow both in order to complete Level 2 Verification.

FTX US

10. Take a picture of the front and back parts of your ID when prompted. Make sure that the image is clear and the edges can be seen. Tap **Looks good** after an image of each side has been taken, or tap **Try a different image** if you want to retake the picture.
11. You will be asked if you'd like to allow Stripe to use your information to improve their technology. This is optional.

12. After submitting the pictures of your ID, you will be asked to verify yourself with a selfie. Tap **Done** after your selfie has been taken.

FTX US

If your verification is not auto-approved, please allow up to 3 days for our team to review your information. Please make sure to check your email or in-app messages while waiting for verification to complete. Our team might send you an email or send you a message in the app if they need more information from you.

Notes:

- You must be 18 years old to open a FTX App account.

- Residents of the State of New York can sign up and trade stocks, but not trade or deposit crypto.
